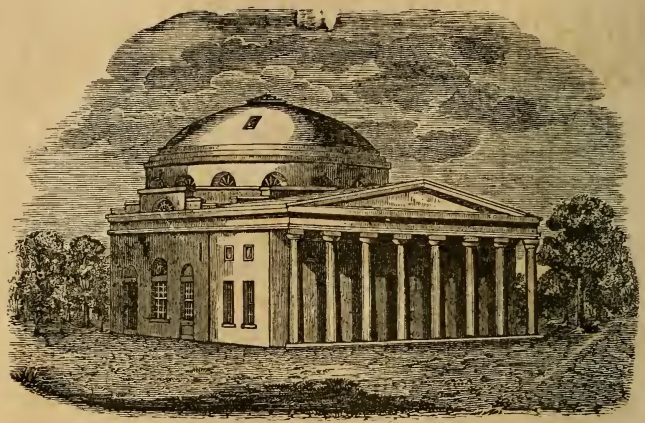
No. 102 LIGHT STREET WHARF,

THIRD DOOR SOUTH OF CAMDEN STREET,

BALTIMORE, MD.

UNIVERSITY OF MARYLAND,

School of Medicine.



The Annual Session begins early in October, and ends on the first of the ensuing March.

FACULTY OF PHYSIC.

N. R. SMITH, M. D., Professor of the Principles and Practice of Surgery.
W. E. A. AIKIN, M. D., Professor of Chemistry and Pharmacy.
SAMUEL CHEW, M. D., Professor of the Principles and Practice of Medicine.
N. R. SMITH, M. D., Professor of Anatomy and Physiology.
GEORGE W. MILTENBERGER, M. D., Professor of Obstetrics.
RICHARD McSHERRY, M. D., Professor of Institutes of Medicine and Lecturer on Materia Medica and Therapeutics.

Clinical Instruction is given in Medicine and Surgery at the "BALTIMORE INFIRMARY," an Institution of more than thirty years standing, belonging to the University, situated in its immediate neighborhood, under the sole charge of, and attended by, the Faculty. Its wards constantly contain ample material for illustrating the various forms of disease, and are open throughout the year, to all Matriculates of the School without charge.

Anatomical material is abundant, and supplied at moderate expense. The Demonstrator, James H. Butler, M. D., devotes regular hours to this department of instruction.

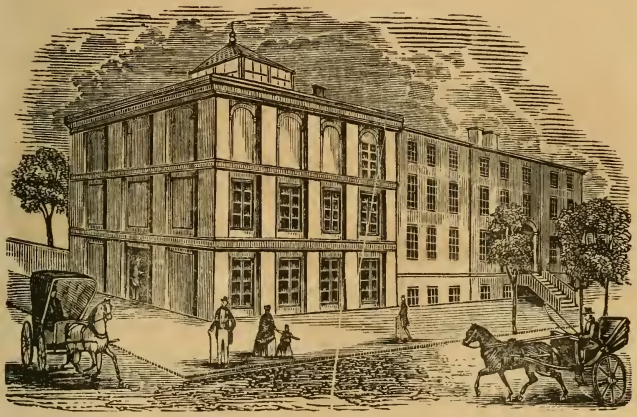
Fees for the Full Course, $90. Practical Anatomy, $10. Matriculation, $5. Graduation, $20.

For further information apply to

GEO. W. MILTENBERGER, Dean of the Faculty,
No. 152 W. Lombard-st., Baltimore.

THE

BALTIMORE INFIRMARY



Is constantly open for the reception and care of THE SICK. The Patients are attended by the Faculty of the University, and nursed by the Sisters of Charity. An addition has recently been erected, containing commodious private apartments separate from the more public portion of the house. Persons from a distance requiring surgical treatment, or operations, will find the Institution admirably adapted to this purpose.

Board from THREE to TEN DOLLARS per week, according to the accommodations required.

Applications for admission may be made to

DR. E. F. MILHOLLAND,
RESIDENT PHYSICIAN.

MAYNARD & NOYES,

BLACK

WRITING INK.

Manufacture Established 1818.

The quality of this Ink has been *tested for more than* FORTY *years*. During this time, it has constantly increased in public favor and patronage, and is now the leading article in the country. The proprietors annex a few of many Testimonials received from parties who have *used it for more than a quarter of a century*, and whose opportunity and qualifications for judging correctly of its merits will not be questioned.

REGISTRY OF DEEDS OFFICE, Boston, January 10, 1859.

Messrs. MAYNARD & NOYES, Gentlemen: I am glad that longer use of your Writing INK enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, *and my oldest records are as legible and black as when first written*. This rare quality for permanence, renders it invaluable for State and County Records and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

BOWDOIN PUBLIC SCHOOL, Boston, January 7, 1857.

Messrs. MAYNARD & NOYES, Gentlemen: I have used your Ink in the Writing Department of this School the past thirty years, and take great pleasure in renewing my testimonial of its superior quality. It flows freely from the pen, its color is brilliant and permanent, and it combines all the necessary and desirable qualities of good Ink.

JAS. ROBINSON, Writing Master.

The following extract of a letter from a well known and long established Bookseller in Dover, N. H., is like many others often received, and will be found to express the opinion and correspond with the experience of a larger number in the business.

After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other Inks, and will have nothing further to do with them. I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during the year.

Dover, N. H., October 16, 1858. E. J. LANE.

The following Testimonial from Dr. Chilton, is added as a supplement to any of his previous tests.

From experiments instituted by me, in 1855 and 1856, and repeated within the past six months, I am fully satisfied that Maynard & Noyes' Writing Ink is entitled to the pre-eminence it has always sustained for Legibility and Permanence of color.

New York, May 11, 1858. JAMES R. CHILTON, M. D., Chemist.

The above popular Ink, together with BLUE, RED, CARMINE and COPYING INK, WRITING FLUID and INK POWDER, is for sale by the principal Booksellers, Stationers, and Paper Dealers in Baltimore.

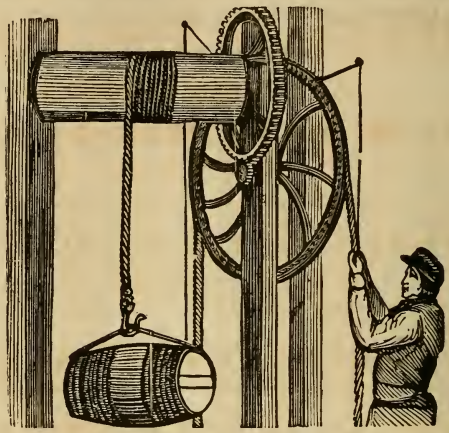
BATES'
HOISTING MACHINES,

ON STRICTLY SCIENTIFIC PRINCIPLES, FOR WAREHOUSES.

BEST AND



CHEAPEST!

The Subscriber having been engaged in this business for the last twelve years, in connection with his Iron Foundry, will guarantee a better Hoisting Machine for less money than can be produced in this city. Every Merchant and owner of a warehouse will save the expense in a short time, to say nothing of the safety of his goods in being hoisted some sixty or eighty feet above his head. I would refer to some of the principal merchants in Baltimore and elsewhere, for whom I have put up these Hoisting Machines. The wheels are in use, and can be seen daily at work.

214 BALTIMORE STREET.

This Machine makes the "LOCK STITCH," and ranks highest on account of the elasticity, permanence, beauty and general desirableness of the stitching when done, and the wide range of its application.—*Report of the American Institute, New York.*

The qualities which commend the Wheeler & Wilson Machine are: 1. Beauty and excellence of stitch alike upon both sides of the fabric sewed. 2. Strength, firmness and durability of seam, that will not rip nor ravel, and made with—3. Economy of thread. 4. Its attachments and wide range of application to purposes and materials. 5. Compactness and elegance of model and finish. 6. Simplicity and thoroughness of construction. 7. Speed, ease of operation and management, and quietness of movement.

From the Swann Premium Committee, Mechanics' Institute, Baltimore.

The Committee award to the Wheeler & Wilson Sewing Machine, falling, as the Committee think it does, within the description of "the most practical invention adapted to common use, to be estimated with referenoe to the cheapness and general utility." The Committee had a wide range allowed to them by the laws of the offer of this premium, and have deliberated carefully before coming to their conclusion. There are three machines in the exhibition; and in determining between them, the Committee, guided by the language of the offer, have chosen that which in their opinion is the most likely to come into common use, not only in large establishments, but for the purposes of daily domestic life.

The Publishers have the pleasure of announcing a NEW, CHEAP and UNIFORM EDITION of the SHORT TALES of M. HENDRIK CONSCIENCE, the distinguished Flemish Novelist. PONTMARTIN, the acute French Critic and Reviewer, has likened the Stories of Conscience, to "pearls set in Flemish gold," and in point of delicacy of treatment and high moral value, they richly justify the comparison.

There is a pure morality throughout the works of this author, which makes them peculiarly fitted for the perusal of the young

PREFACE.

The substantial growth of Baltimore is indicated by the large increase of Names and business matter in its City Directory. The present volume will be found to be a much enlarged and improved issue over the last. The last City Directory was published in October, 1859, for the year ending 1860, contemplating its issue thereafter annually, but owing to the depression of business and civil discord in the community, and the little encouragement extended to the Canvass, the publication was indefinitely postponed. The want of the work has since been so immeasurably felt by citizens, strangers visiting the city, by the City Collector, and offices of the City Government, that the City Council generously voted an appropriation of $1,000 for 100 copies, and we are happy to state that, after especial efforts, our endeavor to secure an amount of patronage has been, at least, equivalent to the cost of canvassing, printing and binding, and that the present volume will go into the hands of a much greater number of Subscribers than any that has preceded it; another evidence of the elasticity of our business men, and of the revival of trade and commerce.

The Canvass of our city to obtain the information contained in this work has been the most vexatious and laborious ever prosecuted by us: only those engaged in publication of works of like character can fully estimate the increased labor of a publisher, in collecting and preparing for the press, in the midst of the excitement existing in the public mind during the weeks our Canvassers were on the streets, taking the Names for the Directory. Our Canvassers were pronounced by some to be "United States Assessors," seeking to fix on the people onerous taxes; and, by others, they were declared to be "Enrolling Officers," who were using their best efforts to obtain the name of every citizen for military purposes; and from these and other imaginary causes, delays and refusals in our Canvass were numerous, and of the most troublesome character. Notwithstanding these obstacles and difficulties, through the faithful labors and indomitable perseverance of experienced Canvassers, and the aid rendered us by our friends, we have the confiding hope that its usefulness will be found indispensable, and will meet the approbation and encouragement of the citizens.

The Business Directory.—Particular examination is called to this feature of our work, unusual care being employed in its compilation. Every branch of business is properly registered, and in this particular we have had much to contend with, for frequently it will be found that many persons do such a business, that we have had to place them under several headings, with the difficulty of discriminating the proper ones.

Our business community has, within the past three months, been unusually annoyed by schemes for "Business Directories." The impudence and pertinacity of these interlopers and adventurers, who feel no interest, apart from pecuniary advantage, in the production of such an important work, are only commensurate with their utter want of capacity and integrity, whilst their intrusive efforts are as valueless to the community as they are prejudicial to the interests of those legitimately engaged in the business. Our Canvassers were frequently met with the remark, "How many Directories are there going to be?" "We have already given our names several times." We are compelled to reiterate our extreme surprise that our business men, with the past examples of such enterprises, should have again suffered themselves to be imposed upon by such worthless publications; and we sincerely trust that future caution will have been purchased by present and past experience.

The Street Directory.—The attention of the public is especially called to our Street Directory, a reference to which enables persons to immediately find the square in which any number is located. Special mention is made of this from the fact that this matter, though of the highest importance, has been overlooked by many; a glance will convince the observer of the general utility of this Department of the book.

The Advertising Department.—In the handsome display of these pages, many of the leading mercantile and manufacturing houses of the city will be found represented.

It is important that all persons using the Directory should consult our list of "*Alterations and Corrections*," as the latest changes are therein noted, and the *names of all citizens inserted* that could not be obtained early enough to be inserted in their proper places in the body of the work.

To the many who have encouraged our labors, we acknowledge our indebtedness, and trust that the disposition manifested to make the book worthy of their support, has not been in vain.

PURCHASERS

Are especially invited to examine the stock of goods that we offer for the fall trade. A member of the firm has traveled all the manufacturing districts in Europe during the past summer, taking great pains to select the most desirable articles that could be found. Importing direct from the manufacturers, (thereby saving commissions, charges, &c.,) we procure the goods at first cost, consequently enabling us to sell upon terms equal to any establishment in the United States.

WOODS'

STREET DIRECTORY,

INCLUDING

STREETS, AVENUES, LANES, ALLEYS, COURTS, WHARVES, &C.

IN THE

CITY OF BALTIMORE.

EXPLANATION.—If you wish to find the location of any house, for instance, 71 N. CHARLES-ST., on consulting the Street Directory, (see CHARLES N.) you will observe 55 is on the N. E. corner of Charles and Saratoga-sts., hence the desired No. 71 will be between Saratoga and Pleasant-sts., right hand. Or, if you are going up Charles-st. and wish to take a cross street so as to call, for example, at 103 Park-st., examine the numbers on the corners of Park-st., (see PARK, Street Directory,) and you will find 95 on the corner of Park and Centre, then by counting four houses you arrive at the desired No. 103, right hand.

Entered, according to Act of Congress, in the year one thousand eight hundred aud sixty-three, by John W. Woods, in the Clerk's office of the District Court of Maryland.

Wm. H. Purnell, Postmaster.
C. J. R. Thorpe, Assist. Postmaster.

The Office is open during the week in Winter from 7½ A. M. to 9 P. M.—Summer from 7 A. M. to 9 P. M. On Sunday from 9 till 10 A. M. Stamps for pre-payment of letters can be had at the Post Office.

A Time Table of the Departures of the Steamers from Boston and New York, and Steamers for California, carrying the Mails, is placed in the rotunda of the Post Office.

RATES OF POSTAGE.

Letters advertised are charged one cent each, besides regular postage. Drop Letters are not advertised. A list of Drop Letters is placed in the rotunda of the Post Office every week.

CIRCULARS.—Three circulars or less, sent for two cents; pre-payment by stamps required.

NEWSPAPERS.—The quarterly postage on regular newspapers, if prepaid, is five cents for a weekly paper; in same proportion if published oftener. Transient newspapers sent anywhere within the United States at two cents, not exceeding four ounces, prepaid by postage stamps; all transient printed matter at like rates.

For postage on other printed matter see table of rates.

When the article to be mailed is a circular, pamphlet or newspaper, it should be so enveloped as to be open at one end—otherwise it will be charged as a letter.

J. HENRY GIESE, Commission Merchant, for the sale of Flour, Grain, Seeds, &c. Rosendale Cement and Calcined Plaster constantly on hand, 21 Spear's Wharf.

STATION OR BRANCH POST OFFICES

The carriers will visit each Station or Branch Post Office in the city of Baltimore (under the new carrier system as inaugurated by the Postmaster General, commencing from July 1st, 1863,) three times a day, (Sundays excepted) commencing at the hours of 7 A. M., 11 A. M., and 2.30 P. M. By this system the letters for the outgoing mails will be brought to the Post Office in time to be sent with the corresponding mails, while the local or drop letters will be promptly delivered (within the city limits) as addressed, as often as three times each day, without charge or additional carriers' stamps as heretofore.

The law requires that all matter to be sent through the mails, or to be delivered within the limits of the city, must be prepaid in United States postage stamps.

Postage to be prepaid on local or drop letters *two* cents each, if within the half ounce in weight; four cents if over, and within the ounce, &c.

Postage to be prepaid on all letters to be sent through the mails to any part of the United States (California included) *three* cents if single rate, six cents if double, &c.

Special care has been taken in the selection of proper localities for the Drop boxes, in order to afford the greatest facilities to each and every section of the city.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family. —*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is *free from reproach* if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

Documents showing the benefits of Life Insurance with the advantages of the Mutual plan, and the superior position and marked success of this Co., and explaining the different kinds of Policies with their methods of payment, may be obtained, free of expense, upon application either personally or by mail, to

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds* himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain;* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat them-

selves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question it will be necessary to explain briefly the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company. He says: "Purely Mutual Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made three distributions of surplus funds (1848, 1853, and 1858,) in *cash*, amounting to OVER $600,000. It now has an invested fund of $2,550,000, to pay losses, and a surplus of $1,250,000; so that it could reinsure for $1,250,000, and divide $1,250,000.

The New England Mutual Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1858 amounted to $335,000.

Its *standing* and *economy* are unequaled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e. in its ratio of value to liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business

is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

☞ The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of $1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!
